If you dont like hardcore leave now!

Choose a proper nickname, NOT something like 'aaaa' or 'jhsd;qqqsgal;kj' or '12345'. If you DONT choose a proper nickname, I may not activate you, even if you apply by all the other rules. Bullshit nicknames indicate you are not serious about dreamboard, and its very insulting, and I may in fact delete you on sight, when your name appears at the bottom of the board.

No grannies, young only for applications (under 13). And no goddamn 'toons' for applications!

Nude or Hard Core for applications.

Not Sandra, Vlad, new star, nip slips etc...

If I dont see Nudity in the preview, you dont get in

PROHIBITED DONT USE THESE UPLOADERS! (MALO, отрицательно,schlecht!)

- usershare.net
- Upload-drive
- Drop.io
- MEDIAFIRE
- BADONGO
- MEGASHARES
- MEGAUPLOAD
- MEGAEROTIC
- RAPIDSHARE
- SENDSPACE
- SEXUPLOADER
- YOUSENDIT.
- FILEFACTORY
- USAUPLOAD
- bigupload.com
- w13.easy-share.com
- up-file.com
- LETBIT
- EVILSHARE
- zippyshare
- zshare
- hyperfileshare
- webfilehost.com
- www.files.to (because no one can download from it, its useless)
- Archiv.to
- enterupload.com
- www.savefile.com/
- hotfile.com

Your video/pic set, must be around a 50 meg upload.
I measure the upload file NOT decryption size.

A 5 meg file that decrypts to 50 meg, is a 5 meg file, and will NOT get you in.
Upload size must be 50 megs or more, and you can upload the file in parts, like 1.rar, 2.rar, 3.rar etc...

Must have a preview. (No imageshack, no imagavenue, imageshost.ru/ is preferred)

Must have dreamboard and your nick in password.

If your name is 'Rodger'

If your name is 'Rodger'
Then the pass for your video would be
"RodgerForDreamboard"
Always write the exact pass you used.
DO NOT write 'pass according to the rules' or some other cryptic bullshit.
We dont want to be all day, trying to guess a password.
And dont put 'newdreamboard' in pass etc.. just 'dreamboard'
Yes, I have referred to this board as new, when writing about it at kikis etc..
But its in reference to the fact, it was brought back from the dead, and that was a long time ago.
So just 'dreamboard' in pass, thanx

Good uploaders.

filesurf.ru/
hotshare.net/
up.spbland.ru/

balsamic.fam.cx/balsamic-uploader

If any of these, change, so javascript is needed to download, then STOP using them

Also dont alter your email, it may delete you, or set you back to validating.

Once in awhile, a members account sometimes just disappears or stops working.
If this happens, contact me, and I will fix it

Also only post YOUR own work, YOU uploaded, dont repost other peoples links.

And always provide a preview, thanks

You will not become a member, if you dont apply this way.

To be able to post in application section you must:

1. register
2. login as the name you registered as.
3. Go to 'post your application here' section

A real email is not needed, and has never been needed for Dreamboard.

Anyone who says, dreamboard needs real emails is very wrong.
In fact there have been many untrue things said about dreamboard,
so just ignore, what people have said, and enjoy!

Make up an email like, luke@luke.com

If I see posts of girls with great big tits and a big black hairy bush, then you can fucking forget being made a member.
 Keep the girls under 13, in fact, I really need to see 12 or younger to know your a brother.

And dont avoid nudity in previews.
 I will NOT accept you, if theres no nudity.
 And my definition of nudity is pussy or anal in the shot.
 You just waste your own time, if you dont do this.
 Because you will not get in, if you dont follow the rules

If your posting LS magazine 3-4-5.mpg then make that your title for your application post.
 Dont title your application "Application", I f@cking already know, its your application.
 Dont title the post with your name, or any other irrelevant garbage.
 I have to keep changing the titles before moving your posts to the inner board, after I make you members.
 And I am getting real sick of the titles of most applications, some of them give no indication at all what your posting.
 Only you and the admins, can read your applications, so dont worry about antis reading your posts, because they cant 😊

You can obviously read your OWN application, and admins can read it, but NO ONE else can read your applications.
Other validating CANNOT see your posts.
We had a rule, where you had to send the password via pm.
You dont have to do that anymore, as only admins and YOU can see your own work.

This stops assholes from lurking and getting free posts.
And is safer for dreamboard.

Here that you asswipe lurkers?
You Idiot leaches, have to go somewhere else to get free posts, so fuck you very much, and fuck off.
All the cool people, will post and get in, all the thieves can fuck off and die
p.s Your work still needs to be password protected, some of you are not to bright, and have been uploading WITHOUT using a password. Dont do that!
WRITE the password. Dont write 'pass is by the rules' or some ridiculous load of rubbish.
~~~~~

Tu puedes leer obviamente tu PROPIA AplicaciÃ³n, y los admis lo pueden leer tambien, pero NADIE MAS puede leer Tus aplicaciones de ahora en adelante.

Tuvimos una regla, donde tenias que enviarme la contraseña a travÃ©s de un PM. Ahora yo no tendras que hacer eso, ya que sÃ³lo los Admins y TU pueden ver tu propio trabajo.

Esto es para eliminar a los "mirones" que estan al acecho y consiguiendo Aportes libres. Ademas, es mÃ¡s seguro para TI y para Dreamboard.

DONT apply with non nude. If I dont see nudity in the preview, you DONT get in.

Dont try to avoid putting nudity in the preview. If nudity is NOT in preview, you DONT get in. I have to know your a brother.

DONT apply with Sandra, Vlad, New star (whatever model), or nip slips, etc..

Yes, we have that stuff in the board, but dont apply with it.

Dreamboard has more than 500 posters, and gigs of ontopic.  
Its only fair, YOU apply with something REAL to see all of that.

And:

You apply with a file that has wrong pass, then you may have to reload your whole file, man what a drag!

You have no preview? I will wait a thousand years, until you provide a preview (on img.damak.cz/).  
No preview = no entry. As in YOU WILL NEVER GET IN, without a preview.

You used the wrong uploader?  
Then you have to reload your file onto a SAFE host.

You used rapidshare? I will delete you for that!

And remember I have to view hundreds of applications a week, and nearly half of you get it wrong.  
Then by the time you read the rules, and reload, and redo everything, sometimes a whole day goes by, before you get in.

---

And 50 megs for applications. Of course larger than 50 is excellent!

If your video or pic set(s), dosent quite hit 50 megs, then fine, as long as its close.

In the past few days, at least 20, out of 60 applicants, only uploaded 5 or 10 meg posts. Well they never got in.

You will never get in applying with low meg posts, so dont try.

---

apply properly, by the rules, and get in straight away, no waiting! Of course i have to actually be here at the time!  

p.s If you apply with an obvious repost of something you DID NOT upload yourself, I may ban you, for being a reposter, and thats a lifetime ban, for that nick

Apply by rules, become a member, but that does not make you a member forever.

Any member NOT posting for 50 days, will be deleted.

Validating who dont post in 5 days, get deleted

I may delete non poster every 48 days, or every 47 days, depending on how things are going.

So dont wait until day 50.

And once in awhile I will turn off registration after some BIG deletions of non posters, so you will have to WAIT a week or longer to re-reg.

That would SUCK, so dont be lazy!

50 arrested, out of the total.

I would say, I could think of 50 here, who do unsafe things.

Associating in real life, or getting in your car and driving 50 miles to try and screw some 10yo you met 2 days ago is stupid.

yes, there is a close bond between members on boards, but when you say o.k, lets go and have a drink together, the game changes.

I am always shocked when i discover people are meeting in real life, and it happens far to often

Remember that super best friend, may be your mortal enemy one day, and then thats an enemy who knows who you really are, plus the 500 other things that can go wrong, when you meet in real life.
something as simple as being under observation.

Like they match private messages (email, pm, or whatever) to real life actions, if they are actually watching you in real life.

Lets see if Tom gets in his car and drives to such and such address, as mentioned in the message.
ive read a few news stories about that.

they may not have enough to get you from online actions, but when you take it into the real world, they get evidence.

and for anyone who does have ontopic buddies in real life, at least 'dont' add new buddies to your list, as thats another bullet in the russian roulette chamber, for every new buddy you add.

One day your going to have a fully loaded gun pointed at your head, when you pull that trigger

and you may be horny as hell, but dont go off trying to screw some jailbait, you have only known for a few days on the net.

2 days not even close to good enough.

As always dont act to quick, or you will repent at leisure

Fair enough if you want to post a video or pic set, that's gets rough.  
But NO dead children, or kids getting dismembered, or bones broken, or teeth smashed.  
If you like dead children or children getting killed then FUCK YOU, really... fuck you.  
Seriously that's pushing way past my limit, some of you guys have mental problems.  
And yes, this is in response to some of the stuff, that some of you try to post.  
And this is topic is closed, no one is going to persuade me to change my mind, so don't even try.  
p.s, I do like rough stuff, so bare in mind, I did not say, you can't post vids that have whips, belts, crying etc..  
I said don't post kids getting killed! Anyone see the difference? Or is some form of the most basic intelligence required for that kind of hard thinking?

*Super Hardcore, is babyshi, baby-he etc..*

*Its not k-girl, its not 'real lolita vol3'*

*Its very young kids, getting fucked, and preteens in distress, and or crying, etc...*

*Getting hit hard on the ass, with a belt and so on..*

*I cant believe some of you guys cant work it out for yourselves?*

*And 'pretend' bondage, 'pretend light whipping' is not super hardcore.*

*If the girl looks totally comfortable, shes not in distress, it does NOT belong in this section!*

A standard definition is definitely the best way to go. May I humbly propose some additions?

- General HURTCORE (any forms of upset, crying, wailing, discomfort, forced actions, rape)
- BDSM (bondage and sado-masochism only)
- Lashing and spanking? <--- I am not sure about this, capt. As some may treat it as a normal "perversion"

I think people got confused due to there being no "HC" section in PT vids and treat the likes of BD, LS and numerous SC series as "only" PT vids.

 The most important trip you may take in life is meeting people halfway  
p.s Members cant always fix some problems themselves.  
If things start going horribly wrong, pm me, I can delete a total fuckup of a post, or ban a reposter, settle arguements, or make you a martini etc... :)

I can resist everything except temptation...

**GENERAL ANNOUNCEMENT**

**1. OLD THREADS SHOULD NOT BE BUMPED**

After a slew of old threads been bumped, it has come to my attention that certain things needs to be said. Not only bumping old threads is bad etiquette, it also creates hostilities and earned you a few wrath points. Collect too much of those, and you're in for a beating. Don't come crying to us if you had been treated badly.

*So...how old is old, exactly?*

If its more than 3 months old, don't bump it. If the poster has been deleted, don't bump it. If someone tells you don't bump old threads, please listen to them and don't bump it.

*Who should pay attention?*

New members to DB with few posts should NOT request (hence bumping old threads) and newly promoted VIPs.

Its not rocket science. SVIPs and VIP gets their request filled more often because of the time and effort they put in and the respect they earned. On other boards, if a newbie comes in and start requesting, he's probably heading out the door soon. We @ DB do not enforce that but its a unspoken rule.

Read below for proper request channel.

**2. VIPS PREVILIGE AND REQUEST CHANNELS**

VIPs has extra powers like the ability to use PM and the use of EDIT function for their own posts.

So, a newly promoted VIP sees an old thread and for some reason, he needed that vid and that vid only to fap. All's not lost as the first thing to do is **PM the original poster** for reups. If he declined, is unreachable or was deleted, try the pinned **REQUEST AND OFFER** thread **HERE**. (only for VIPs)

*Still no luck?*

Post a similar post and request for the materials you want in your own post. You can attach and reuse the old preview for this purpose.

*Not so unlucky are you?*

Post the preview in the Chat section and some nice guys would always answer. Chat section is very popular, you know. Just don't flood the section with too much request please. And if you're a newbie, start to get more active and post more before requesting anything.

**3. HOW TO PROPERLY LINK THREADS ON DB (IMPORTANT)**

Some hardworking members included a link to another thread but it does not work.

*Why?*

DB changes address every few days, and the links that bore the full address would probably be a null link to Timbuktu by then. The correct way is to use the dotslash code or if you're lazy, just copy the last part of the address like this "index.php?showtopic=99999".

*How?*

Notice I used the dotslash "/" code for my link above on the white color bold clickable Link with the word "**HERE**".

Dont change the name of your video.  
Change the name of the file archive, you upload.  
  
'7yo assfucked.rar' is an upload file name, that will get people arrested.  
so call it something like '7af' instead, then upload the file.  
  
No el nombre de vdeo. El nombre del archivo, usted cargan. '7yo assfucked.rar' es un nombre , que causarÃ¡ arrest. tan cambio algo como '7af' en lugar, entonces cargue archivo

I responded with  
  
Its a minimum of 3 months by law, that most ISP's worldwide have to keep logs on your internet history.  
They DO keep the history, and agents WILL contact your ISP and demand those logs.

Its not some big computer that stores everyones net history ever.  
Its YOUR ISP, that records and keeps your history. 😊

We have a section for Super posters called 'VIP section' when you are upgraded to VIP status, you can see this section. And you will want to party hard!

**user posted image**

Because, there are some very big posts in VIP section!

Dont always wait for me to make you VIP. It is important, when your ready, that you title your post 'for VIP consideration'. If you dont, I may not even realise you posted 3 gigs.

Posting alot, means over 3 gig in total, or thereabouts. Thats 3 gig of hardcore. If your posting softcore, you may have to post around 4 gig or more.

If non nude, you can almost forget about VIP

And, on your last big attempt at VIP, title your post, something like "For VIP consideration" in pt vids section, etc... But make sure all your dreamboard posts combined, comes to more than 3 gigs.

That is every video, you ever posted. You obviously dont have to post all the 3 gigs in just one post

And dont make me count the fucking totals. Tell me how much you have posted in gigs, and be accurate, because I will check, but its easier, if you give me some idea

---

To access -16 nude and -16 non nude, send me a working pass to gain access

A working -16 nude pass for -16 nude section.

A working -16 non nude pass for -16 non nude section.

One pass, does not give access to both. Its one pass for each section.

If you send me a pass to a legal site, like teensfuns, or something, I will ban you from applying for one week. Many people use to try and trick me, with over 18 passes. So, now you are penalised for doing that.

Super VIP, gains access to Super VIP posts and 'Hawkeye Chest'

I post in that section, although, i work so hard just running dreamboard, I rarely post these days.

Of course SVIP's post a ton of work in SVIP section.

You have to be a hard working VIP first, then you become Super VIP.

You cannot apply, to be Super VIP,  
I just automatically, make great members Super VIP.

If you are a hard worker, you may see my section one day.  
And I usually thinks its poor taste to ask for SVIP, unless you ask because you have private, you wish to share etc...

Things may stop you becomming Super VIP,  
like reposting, or being negative to admins and other members, and things like that

Good luck everyone, I hope most of you,  
strive, to be the best you can be.

Seriously reposting is not cool.  
Only post, what you uploaded.

And Preview pictures

To make picture 'live' use IMG tags. Remove \* from my example below, when using IMG tags and put the full picture address between tags, and include 'http', like example below
